Arclid Transport is a leading carrier of a wide range of bulk powders, granular raw materials and minerals

We go the extra mile and pride ourselves in developing long-lasting relationships with our clients, based on our reputation as a trusted partner.

Driven to deliver the highest quality service, our team is dedicated to ensuring:

- Quality and professionalism
- Reliability
- Customer care
- Optimal safety
- Environmental performance

Our fleet of 30 vehicles comprises rigid and articulated units. Tank sizes vary from 20m³ to 59m³.

We deliver predominantly across the UK as well as into Europe. Operating from Arclid, Sandbach (just 400 metres from Junction 17 of the M6 motorway), our response rate is second to none.

Our expertise

An extensive understanding of bulk powder transportation requirements has helped us carve a niche in a number of specific sectors including:

- Pharmaceutical
- Food manufacturing
- Animal feed
- Detergent
- Chemical
- Refractory
- Glass
- Foundry
- Construction

"Meet the team that goes the extra mile"

Our guarantee to you

“ Our experienced team is dedicated to delivering high levels of professionalism, reliability and customer care ”

Quality & professionalism

The optimum cleanliness of our vehicles ensures the safe transfer of goods, eliminating risk of contamination. The modern, high-specification vehicles we operate provide prompt and secure transportation.

Our fleet is TASC registered, ensuring the clean and safe transportation of food products. All international carriage is to CMR conditions (Convention on the Contract for the International Carriage of Goods by Road) and our driver training includes areas such as customer service, health and safety and fuel-efficient driving.

A reliable service

The service and repair of our fleet is entrusted to main agents who operate a 24-hour service on a contractual basis. An ongoing programme of expansion, coupled with scheduled replacements, guarantees the availability of vehicles in optimal condition.

All our drivers are trained to NVQ Level, and as members of the Fleet Operator Recognition Scheme, Road Haulage Association and Freight Transport Association, we constantly strive to train our drivers and meet all responsibilities under industry-governing legislation.

All vehicles are fitted with tracking devices, allowing us to monitor their location at all times.

Caring for our customers

Industry knowledge and committed customer care has enabled us to continually deliver on our distribution promise and help forge lasting relationships with leading corporate clients including Knauf, Whitworth Brothers, Yara Phosphates, Francis Flower and Bathgate Silica Sand.

The office is managed by our experienced team of professionals during office hours and an answerphone service out of hours.

Our experienced team of professionals

Teamwork and experience are the drivers behind Arclid's reputation for maintaining the highest quality service.

A loyal and dedicated management team and workforce understand the specific demands and challenges of bulk powder and granular product distribution.

We enjoy a very low staff turnover and that degree of loyalty translates into a high quality service.

Our long-serving drivers average about 15 years with us, and two of our drivers have been with Arclid for 25 years!

Key contacts

David Robinson General Manager

David has been with the Bathgate Group for over 35 years and is responsible for overseeing operations for Arclid. He originally started out as a lab technician for sister company Bathgate Silica Sand, later moving to his current role of General Manager for both Arclid and Bathgate Silica Sand.

E: d.robinson@arclidtransport.co.uk

Peter Conway Transport Manager

Peter ensures that the overall operation runs smoothly, from driver availability to maintaining the fleet to optimum levels. With over 20 years' experience in road haulage, he began his career as a powder tanker driver. He's an International CPC holder and is well equipped to handle the responsibility.

E: p.conway@arclidtransport.co.uk

Mark Goodwin Sales Operations Manager

Mark has gained considerable knowledge during his 28 years in the industry. In the 20 years he has been with Arclid, he has developed both operational and commercial skills, ensuring smooth and efficient handling of client accounts. Mark is always available to provide advice and quotations in person, by phone or email.

E: m.goodwin@arclidtransport.co.uk

Les Gleaves Traffic Manager

Les is responsible for routing the vehicles, quickly dealing with requirements and providing customers with a prompt and efficient service. He has been working in transport since he was 18 (when he started as a driver) and has worked his way up to Traffic Manager, accumulating strong experience along the way.

E: l.gleaves@arclidtransport.co.uk

Andy Thompson Traffic Assistant

Andy's strong background in distribution ensures that he knowledgeably and proficiently processes all orders and queries. He's highly focused on customers' requirements, leading to a high level of flexibility, efficiency and control in the scheduling process.

E: a.thompson@arclidtransport.co.uk

Anwen Mountford Administration Assistant

Anwen has been with Arclid for 9 years. She is responsible for purchase and sales invoices, payroll, reporting and general clerical activities. She has a strong interest in vehicles and is a trained Navigator for Classic Car Rallies, an Accredited MSA Rally Marshal for the Motor Sports Association and Treasurer for the Sandbach Transport Festival.

A strong heritage since 1972

Arclid Transport is part of the Bathgate Group and was founded in 1972. Our original core values – quality, professionalism, teamwork, reliability and caring for our customers – are still at the forefront of everything we do.

We value the local community in which we operate and involve the company as much as possible in events and causes including local charities, the Sandbach Transport Festival and sponsorship of both Caldly RUFC and local bike rider (Ducati TriOptions Cup winner) Robbie Brown.
